

Letter From the Editor

Dear friends, colleagues!

Here is the last, fourth issue of our journal in 2019 (Volume 9, №4, 2019). As usual, the issue presents scientific articles and clinical cases on various topics in radiology. We present to you 11 original scientific articles, two scientific reviews and 8 interesting clinical cases.

In total, in 2019 we managed to publish more than 110 articles. This is a very big work of authors, reviewers and the editorial board, and I thank everyone for this huge but necessary work for all of us!

Despite the large amount of work, as promised we have released all the issues on time!

On the New Year eve, I congratulate all our readers and members of the editorial board on the upcoming Year 2020!

I wish you all good health and creative success for the benefit of our patients!

All the best for you!

**Sincerely,
Chief Editor
Sergey Ternovoy**
